

Frontier Bank was founded when a group of partners and friends, devoted to the ideals of community banking, purchased an interest in a small bank in south-central Nebraska. In 2005, other acquisitions in the banking and insurance industries began to follow, bolstering our philosophy of community involvement, local service, and personal attention. As the business grew, so did our footprint, with market expansions in both Lincoln and Omaha. Today, Frontier has multiple locations extending north to south across eastern Nebraska. At over \$1 billion in total assets, we've become one of the largest banking organizations in the state. Frontier combines a fresh approach to community banking with the experience of serving Nebraska customers since 1880. We emphasize innovative products and services combined with personal, trusted counsel. As our customers have thrived, the banking industry has taken notice. Frontier Bank was named one of the 100 best-performing community banks in the nation by SNL Financial. It all comes down to smart advice—and a passion for great service.

Frontier is known for being Good with Money™. We would love to show you why. To learn more, visit a local branch or www.frontier.bank

In general, all of our consumer products are available at all branch locations*. Business products are available at all branch locations; however, the delivery channel may differ based on location. If a location does not have an onsite lender, an appointment can be made. For specialized commercial lending products or services, referrals to the appropriate business line can be made from branch locations and an in-person meeting will be scheduled.

There are no differences in products within the branch distribution channel. Not all branches have safe deposit boxes. Consumers can apply in person, by mail, or by telephone for all deposit and lending products.
