

Community Focused

Frontier Bank in Falls City is organizing food supplies every 6 weeks and delivering them to local schools. The food goes to kids who qualify anonymously. When we deliver the food, provided by The Food Bank, to the schools the teachers put the food in a backpack and place it in the lockers or cubbies while kids are out at recess. The kids take the food home and bring the backpack back to school so it can get filled again. The program provides 4-6 meals per weekend for qualified students. We are proud to support this initiative and the children in our community. - Tiphonie Nekolite, Assistant Retail Banking Manager
